

As a resident of Coronado, Ca. I have had many positive experiences with K-love and their broadcasts. Many of the people that I associate with in the community and the area have been positively influenced by the music and the programming. With the positive message that is constantly broadcast by the stations it gives people that listen a motivation to help the community and to help their fellow residents make daily decisions that are moral and just. It would be a great tragedy to lose the broadcasts that K-love provides.
